# RESTOREM

RESTORES CLOUDY & YELLOWED HEADLIGHTS

Easy-to-Use

Simple 2 Step Process

No Buffing

Professional Results

Repairs in 5 Minutes or Less

**RESTOREM** is an easy to use, two-step process eliminating the need for buffing. The **MEDS** system requires no additional equipment. Over time, headlights become cloudy and yellowed due to environmental conditions, chemicals, acid rain and oxidization. **RESTOREM** cleans the lenses and provides a lasting sealant, protecting the headlights for up to a year, depending on the elements. Restoration is performed where the vehicle is parked. **RESTOREM** is a fast and consistent method for plastic lens restoration and another component in the **MEDS** line of user friendly solutions, designed to enhance the experience of owning a vehicle.

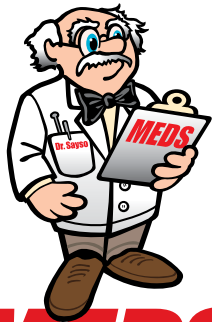

**RESTOREM:**  
24 PCS/12 REPAIRS

ITEM #: MD-RES-012E  
CASE WEIGHT:  
12ozs Per Case

Weight and container size  
contingent upon number of  
cases ordered.
